ARTIST OVERVIEW:

Diamond Dogs is a David Bowie Tribute Act based in Chattanooga, TN. The band artfully explores the breadth of the David Bowie catalogue and genre-adjacent songs in their sets, delivering a unique sound and stage experience. Beginning as a Sunday Jam session between local musicians two decades ago, the Diamond Dogs have evolved into an engaging, professional performance group. Moving well beyond simply covering these classic tunes, Diamond Dogs create an immersive stage presence, performing each song to the note and presenting an enigmatic stage show that is notably theatrical. In addition to delivering the most creative and thought-provoking David Bowie Salute ever, the band's regular sets also include originals and a spirited holiday collection for shows performed during Halloween and Christmas.
